

1. ETHANOL-FIRE - INSTALLATION DECORATION FIRE PIECES / DECORATION FIRE INSTALLATIONS

BIT - 3 SIDES VISIBLE

BIT3-GL

Variations:

"BIT Mica - 3 sides visible"

Description:

"BIT" is a decor fire unit which can be designed individually to easily install and move around. "BIT" can be completely closed with sliding glasses. 2 fixed glass panels, Front side with sliding glass door. Air intake openings and variable exhaust flap allow optimum adjustment of the flame size and/or the flame pattern. Including connection nozzle (ø160 mm) for exhaust flap and mandatory foul-air duct upwards to the individual foul-air exit from the room to the outside, in a chimney, etc.

A DOUBLE GLAZING WITH REAR VENTILATION to reduce the surface temperature of the glass is available on all models.

A FLANGE EXTENSION (frame support extension) for housing a stronger panel (more than 3 cm, e.g. stone, etc.) is optionally possible up to 6 cm.

Including:

Decorative fireplace insert as above, 1 Evaporation burner, Ignition hook, 5 l Bio-Fuel Indoor, Filling container 3 l, Safety shaft, Thermal insulation, 1 Output air flap with cable control, Sliding glass.

Dimensions:

approx.: H 105 cm, W 65 cm, D 68,7 cm;
Visible dimensions: approx. H 45 cm, W 57,8 cm, D 60,5 cm

Weight: approx.: 50 kg

Optional:

Flange extension (BITFV), Double glazing (BIT3-DV), Locking device with a cylinder lock (SCHE-SG), Dékor stones (DKST-WE, DKST-AZ), Dékor wood (HSAB-09, ASTH-07), Thermal exhaust flap (TAK-15), Flexible exhaust pipe (ALRO-01), Hose clamp (KSCH-ES), Output air box with aroma compartment and flap panels (ALKS-KL), Front grille (FAGI-AL), Input and output air grille (LUFG-WS), Superglow (SUPGL), Don't forget fuel!
